FINDING HOME

Whether you're breathing new life into an existing space or creating something brand new, reflect your own excellent taste with Medallion's plentiful offerings. With cabinetry styles from classic to cutting edge, you'll find doors and finishes that express your own personal flair. No matter what you envision, find the perfect look here—your inspired space awaits.

Medallion offers three types of door/cabinet construction: Inset, Framed full overlay and Framed half overlay. All are structurally sound, the difference is purely aesthetic. Use this guide to explore your options.

INSET – Platinum

FACE FRAME OPTIONS

- Beaded face frame includes a rounded groove within the face frame, closest to the doors/drawer fronts.
- Non-beaded face frame maintains original specifications.

Beaded

Non-beaded

HINGE OPTIONS

- Concealed hinge with integrated Quiet Close (not visible from the cabinet exterior).
- Barrel hinges include a finial detail; are visible from the exterior and are offered in four finishes.

Flat Black

Antique Brass

Nickel

Oil Rubbed Bronze

FRAMED – Gold and Silverline

FULL OVERLAY VS. HALF OVERLAY

Gold and Silverline door styles are either full or half overlay. Full overlay door styles cover almost the entire face frame when closed and requires hardware. Half overlay door styles cover part of the face frame when closed and can function without hardware.

ANTIQUE DISTRESSING

Available in Platinum and Gold

Expert craftsmanship creates this antique look by lightly distressing the wood for a subtle, worn appearance. This decorative art form gives the wood a slightly aged feel, adding character and a one-of-a-kind patina. Characteristics inherent in this technique include sanded corners/profiles of doors and drawer fronts, as well as small dings and dents.

Antique Distressing available on cherry, knotty alder, maple and rustic maple with glaze and highlight finish in our standard offering. Rustic maple not available in Platinum.

PLYWOOD

We ensure that our plywood meets or exceeds the highest standards for air quality (including TSCA Title VI and CARB emissions standards).

For plywood upgrade cabinets, we use only the highest grade materials, including two types of plywood:

- Traditional plywood with an all-fir-crossband core has an ideal strength-to-weight ratio for many cabinet parts, so it is used for end panels, shelves, I-beams, hanging rails, etc.
- Engineered plywood with an MDF crossband core creates a superior surface for accepting stains and paints, so it is used for finished surfaces such as finished ends and matching finished interiors.
